

WESTON
BRAIN INSTITUTE

NEW PROGRAM

Transformational Research: Canada 2018

Support for transformative, novel, high-risk, high-reward translational research on neurodegenerative diseases of aging
Maximum \$1.5m over up to 3 years

IMPORTANT DATES

- Information Webinar:** October 25, 2017 at 1pm EDT
- Application Deadline:** ***EXTENDED*** - February 15, 2018 at 2pm EST
- Award Announcement:** September 2018

PROJECT ELIGIBILITY

New for 2018:

- Translational research using humans or human samples/data is in scope. Clinical trials or clinical trial sub-studies should be submitted to the Early-Phase Clinical Trials or Rapid Response programs.
- The Institute has updated which **tools** are in scope. Please see our [What We Fund](#) page to ensure your project is in scope.

Project must be:

- Translational research (*excluding clinical trials and clinical trial sub-studies*) that accelerates the development of therapeutics for neurodegenerative diseases of aging
- Development of a **therapeutic** and/or **tool**
- Supported by excellent preliminary data

Project must impact one or more of these:

- Alzheimer's disease
- Dementia with Lewy bodies
- Frontotemporal dementia
- Multiple system atrophy
- Parkinson's disease
- Progressive supranuclear palsy
- Vascular contributions to the above
- Prodromes to the above
